Eric Thomas  
NHDES-Subsurface  
PO Box 95  
Concord, NH 03302-0095

Dear Eric:

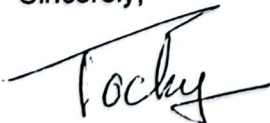

I am sending this application to your attention as suggested by Jay Baas. It is my hope that an explanation of the circumstances surrounding this particular situation will enable you to issue a new approval number for the enclosed plan, which has not been changed since previously approved in 1994 (#202988).

The reason for the resubmittal is that system A, (the smaller of the two systems approved and installed per enclosed plan) is in failure. A couple of years ago, that field was accidentally flooded with hot water from one of the mobile homes for about a week. It was hoped that the receiving mat would recover, but my clients have reported bleed-out between the system and the road and are now having the field pumped out twice a week to prevent it. I do not see any other options other than to remove the existing system and replace in-kind. Accordingly, I am sending you 3 copies of the approved plan with a new application and filing fee in hopes that you can just re-approve the same plan you approved before.

I have included a current letter from the building inspector requesting expedited review. Copies of the waivers which accompanied the original approval are also enclosed. As we are only wishing to replace the 825 GPD system, I hope you will accept my signature on the application. To my mind, this is a simple problem, and I am trying to keep the solution simple as well. It occurred to me that perhaps a waiver of Env-Ws 1003.10 (a) and(e) to allow replacement in-kind per previous approval might be more appropriate, but I will wait for your input on that.

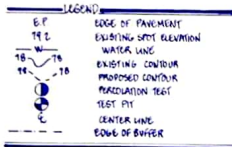

Please give me a call and let me know the best way to do this. (Office 474-1954, cell 765-8918). Thanks.

Sincerely,

Anne W. Bialobrzewski

FOUR SEASONS MOBILE HOME PARK  
EXISTING SITES

APPENDIX A

A certain parcel of land, situate in Hampton, County of Rockingham, and State of New Hampshire, more particularly described as follows:

A certain tract of land called the "gravel pit" situate in said Hampton, and bounded Northeasterly by a road leading from Mary Datchelder's to "Bride Hill" School House (so-called); Northwesterly by a road leading from said Bride Hill School House to "Coffin's Mill," so-called; Southwesterly by land of now or formerly of Samuel Brown and Southeasterly by land now or formerly of John A. James, containing ten (10) acres, more or less.

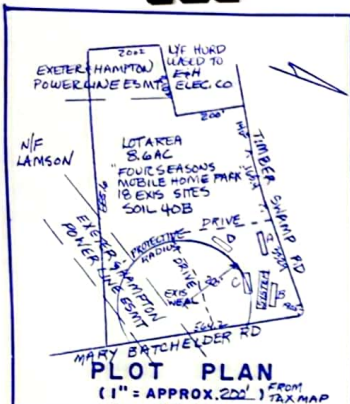

Subject to the following utility easements to Exeter and Hampton Electric Company recorded at Book 817, Page 283; Book 983, Page 158; Book 2032, Page 275; Book 2042, Page 418; New Hampshire Electric Company recorded at Book 1383, Page 381; Public Service Company recorded at Book 2328, Page 1656; Book 2337, Page 1841; New Hampshire Gas and Electric Company recorded at Book 836, Page 254; in the Rockingham County Registry of Deeds. Further subject to right of way to Exeter & Hampton Electric Company at Book 1066, Page 264, and a utility pole easement to Exeter & Hampton Electric Co. at Book 2572, Page 673.

Excepting herefrom the conveyances by previous grantors of two small abutting parcels of land with a right of way to the Exeter and Hampton Electric Company as described in deed recorded at Book 804, Page 43, and Book 2032, Page 274 at the Rockingham County Registry of Deeds.

Being the same premises conveyed to Walter P. Borowski and Richard A. Bley by deed of Four Seasons Mobile Home Park, Inc., dated January 31, 1985, and recorded in the Rockingham County Registry of Deeds at Book 2531, Page 258.

Fleet Bank - NH  
One Indian Head Plaza  
Nashua, New Hampshire 03060  
Attn: Andrew B. Rosen

Subject: Compliance with Zoning, Subdivision, Building, and Land  
Use Matters at Hemlock Haven and Four Seasons Mobile  
Home Parks, Hampton, New Hampshire

Dear Mr. Rosen:

I have made a careful review of the applicable zoning ordinances, environmental laws, and building ordinances, and land use laws and regulations as they apply to the following:

1. Hemlock Haven Mobile Home Park, Hampton, New Hampshire, more particularly described in a deed recorded in the Rockingham County Registry of Deeds at Book 2689, Page 1913, excepting therefrom a parcel more particularly described in a deed recorded in the Rockingham County Registry of Deeds at Book 2887, Page 1010; and
2. Four Seasons Mobile Home Park, Hampton, New Hampshire, more particularly described in a deed recorded in the Rockingham County Registry of Deeds at Book 2689, Page 1897.

Each of the parks is wholly located in the General Zone in Hampton in which Mobile Home Parks are a permitted use. They are in compliance with current subdivision ordinances and building codes either strictly or as prior non-conforming uses. They are in compliance with New Hampshire Laws governing mobile home parks, including, but not limited to, RSA 205-A.

Copies of all licenses, permits, and approvals are attached.

Each of the mobile homes in the parks is individually owned and maintained. To the extent that the park management has no interest in or control over the maintenance of the individual mobile homes, no opinion is rendered as to their compliance with the building codes and ordinances.

Very truly yours,

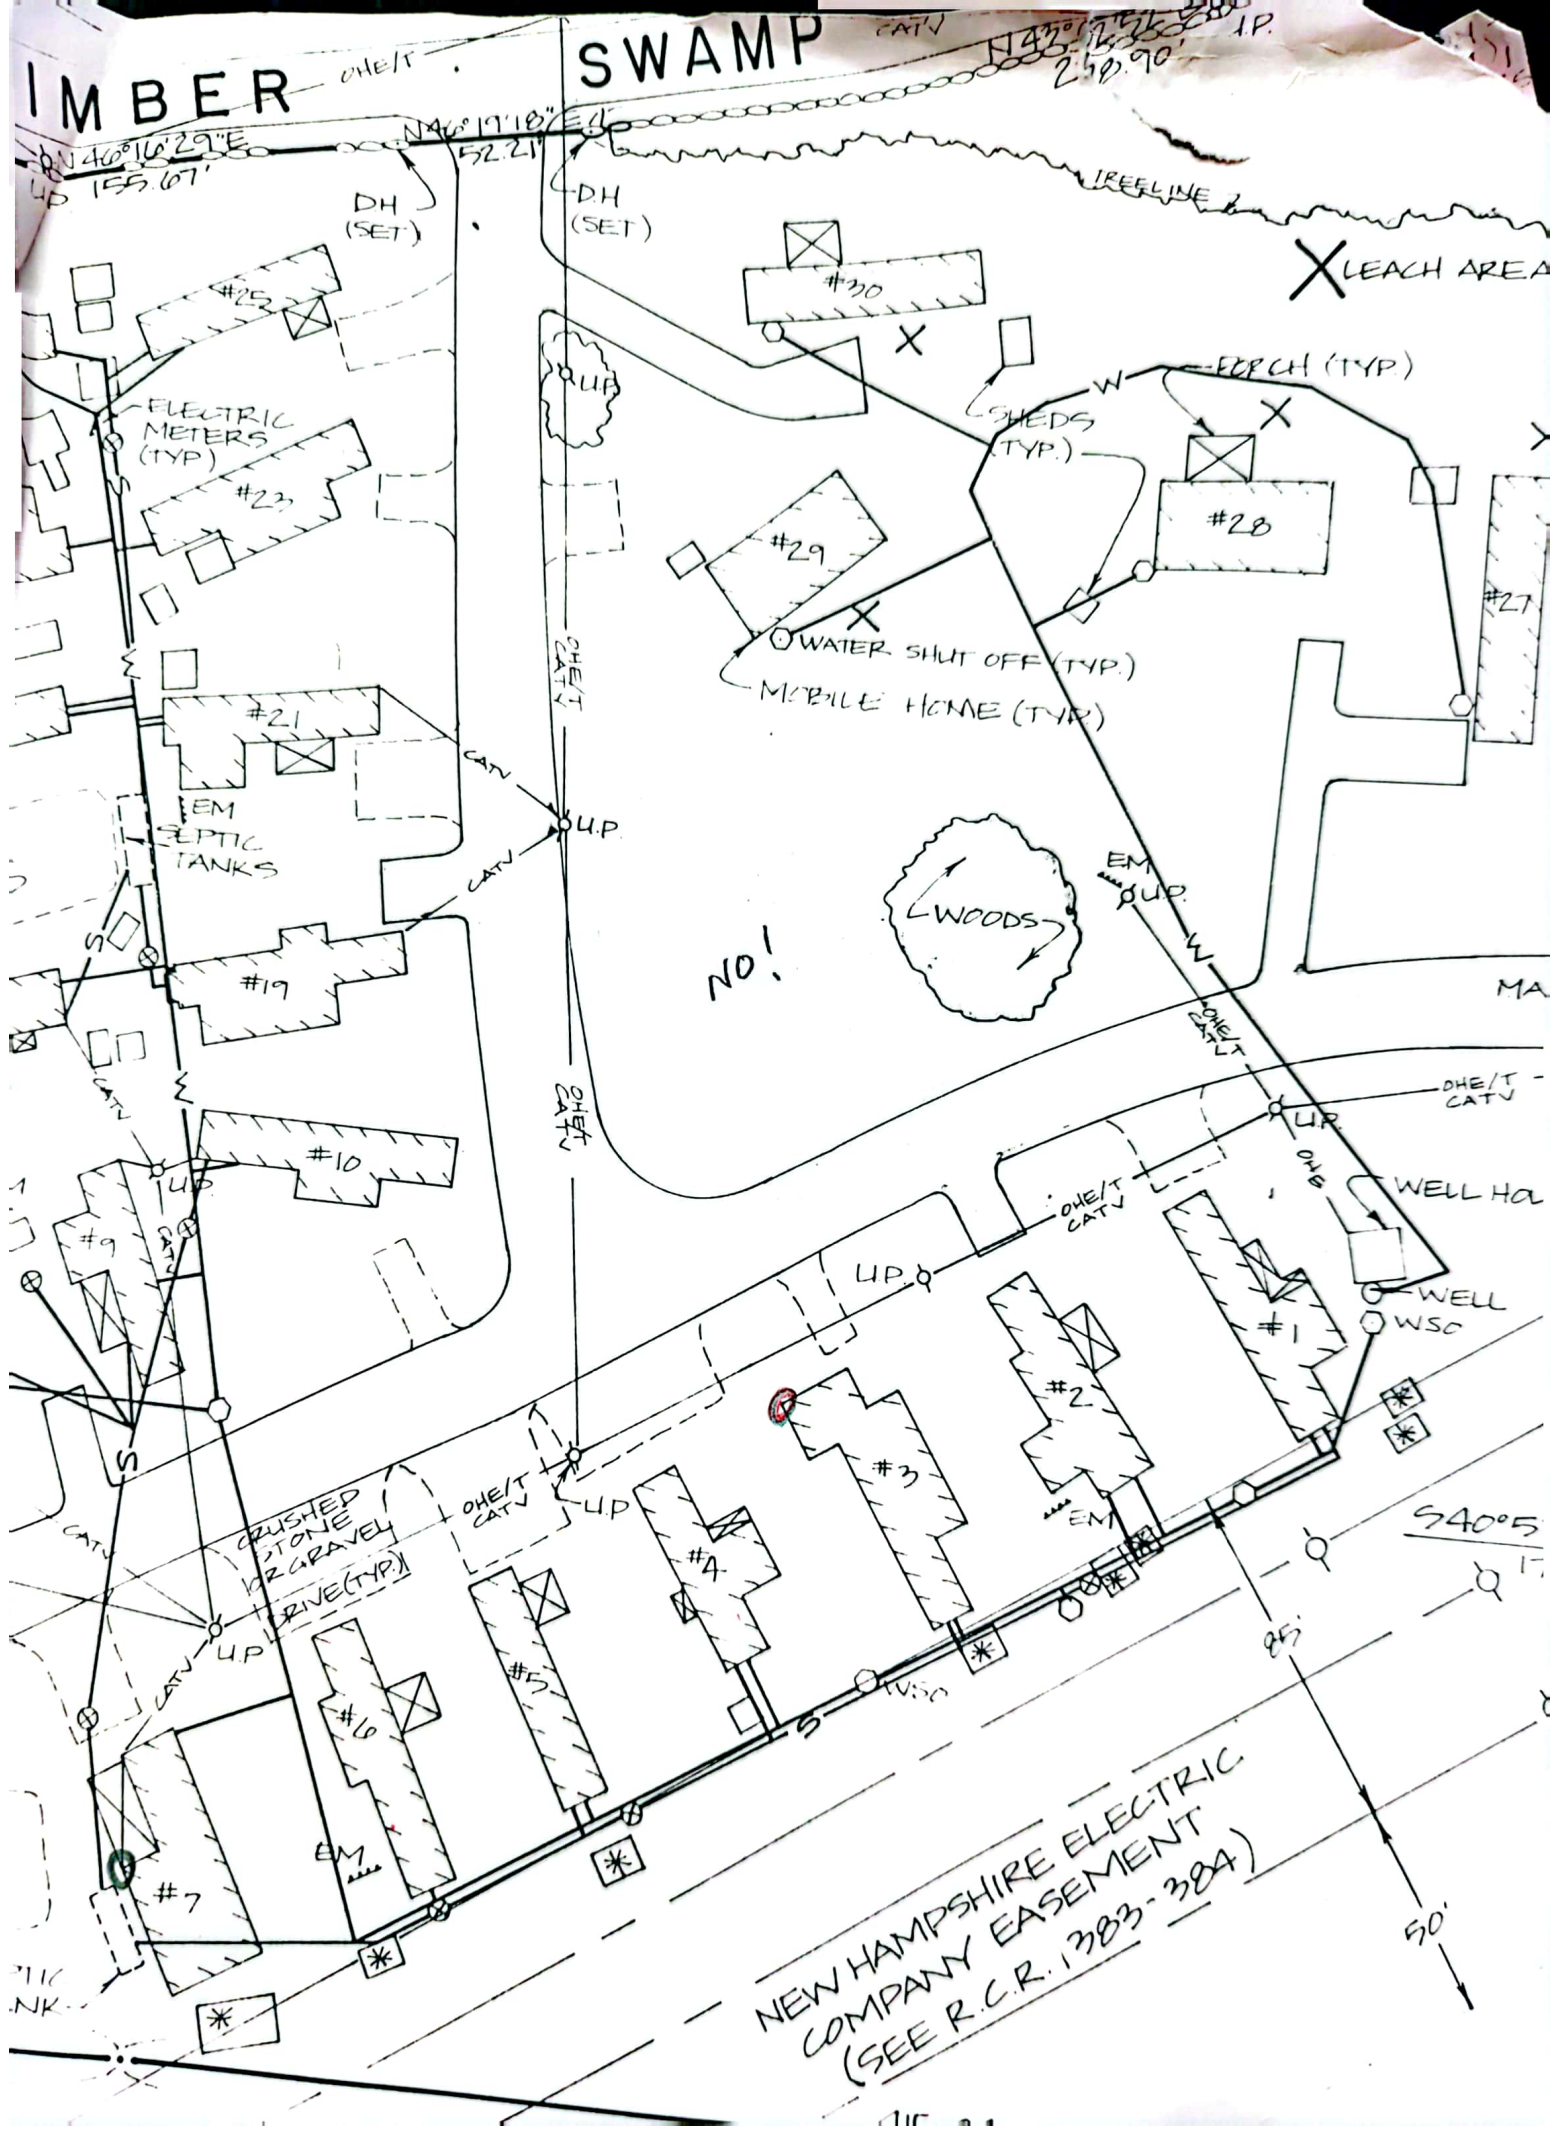

*R. Laurence Cullen*

AGREEMENT AND CONSENT TO JOINT USE

AGREEMENT made this 31<sup>st</sup> day of October, 1991 by and between PUBLIC SERVICE COMPANY OF NEW HAMPSHIRE, a New Hampshire corporation with its principal place of business at 1000 Elm Street, Manchester, New Hampshire, 03105 (hereinafter called PSNH); and RICHARD A. BLEY and RUTH BLEY, with a mailing address of P.O. Box 154, Melvin Village, New Hampshire, 03850 (hereinafter called the Bleys);

WITNESSETH THAT

WHEREAS, PSNH acquired easement rights by deeds of Billie G. Barton and Oletha J. Barton, dated October 24, 1978 and March 28, 1979 and recorded in the Rockingham County Registry of Deeds, Book 2328, Page 1656 and Book 2337, Page 1841 respectively (hereinafter called the Easement), which is essential to its operations in the Hampton area, and has erected poles, lines and appurtenant equipment within the Easement;

WHEREAS, the Bleys are the fee owners of property located off Timber Swamp Road at Four Seasons Mobile Home Park in Hampton, New Hampshire, a portion of which is subject to the Easement;

WHEREAS, the Bleys wish to maintain an existing septic tank and leach field or to construct and maintain a replacement septic system with a new leach field (hereinafter called the Tank and Leach Field and the Replacement Leach Field) within a portion of the Easement between PSNH structures 27 and 28 on transmission line #369, as shown on a plan entitled "Individual Sewage Disposal System Plan, Lot #5 (Tax Map #102), Prepared for Richard A. Bley, 120 Mary Batchelder Road, Hampton, N.H. 03842", latest revision date of June 13, 1990, prepared by John A. Davis, South Berwick, Maine (hereinafter called the Plan), which is attached hereto and made a part hereof; but not recorded herewith. A copy of said Plan is on file in PSNH's Engineering Division;

WHEREAS, the Easement proscribes the erection or maintenance of any building or structure and authorizes the removal of all obstructions within the Easement;

WHEREAS, PSNH desires to cooperate with the Bleys in the retention and maintenance of the Tank and Leach Field or the construction and maintenance of the Replacement Leach Field, and the Bleys desire to cooperate with PSNH to protect its easement rights.

NOW THEREFORE, in consideration of the mutual covenants contained herein, the parties agree as follows:

(1) This Agreement runs solely with the parcel of land as shown on the Plan and described in the Easement.

(2) PSNH consents to the retention and maintenance of the Tank and Leach Field or the construction and maintenance of the Replacement Leach Field and the use of a portion of the Easement by the Bleys as described above and shown on the Plan; such consent is not to be deemed a waiver of any of its rights under the Easement, or construed as consent to the construction and maintenance of any other structures or facilities within the Easement. The Bleys acknowledge their understanding that the location and design of the Replacement Leach Field as shown on the Plan has been agreed to by the PSNH Engineering Division based on certain engineering criteria and considerations, and that PSNH will not accept, and this Agreement shall not be deemed to extend to, any variance from said location and design unless based on separate, prior written approval of PSNH.

(3) The Bleys and PSNH agree to jointly use a certain portion of the Easement as described above and shown on the Plan, subject to the conditions contained herein.

(4) The Bleys and PSNH agree to cooperate in said joint use and to provide each other, when requested, with engineering and surveying plans, maps or information necessary or helpful in locating or determining rights and facilities of the other.

(5) The Bleys agree to take all safety precautions when working under and near PSNH's high voltage electric transmission line, and agree that during construction of the Replacement Leach Field no equipment shall be placed or operated within twenty (20) feet of the nearest conductor.

(6) The Bleys agree to provide notification to PSNH prior to beginning construction of the Replacement Leach Field and upon its completion as well as prior to beginning maintenance of the Tank and Leach Field or the Replacement Leach Field adjacent to PSNH facilities and equipment within the Easement. Notification to PSNH shall be addressed to David J. Hickey, P.E., Transmission Line Engineer or his successor at P.O. Box 330, Manchester, New Hampshire, 03105 or at telephone number (603) 669-4000.

(7) The Bleys agree to maintain the Tank and Leach Field and to construct and maintain the Replacement Leach Field in a reasonable manner so that it does not interfere with or damage the towers, poles, cables or any other equipment owned, constructed or maintained by PSNH or prevent PSNH from replacing, repairing, rebuilding, operating, patrolling and removing said equipment or prevent PSNH from complete and unobstructed access to and along PSNH transmission line #369. The Bleys further agree to cover the full

reasonable costs to PSNH for any such interference or damage as a result of their construction and/or maintenance activities within the Easement.

(8) The Bleys agree to clearly mark and maintain markings of the location of the Tank and Leach Field or the Replacement Leach Field located within the Easement and PSNH agrees to use reasonable care when replacing, repairing, rebuilding, operating, patrolling and removing its equipment and facilities not to interfere with or damage the Bleys' Tank and Leach Field or Replacement Leach Field located within the Easement. PSNH shall not be responsible for any such interference or damage which is unavoidable in the necessary conduct of its operations.

(9) The Bleys agree that any field changes in the Plan within the Easement during construction of the Replacement Leach Field or thereafter, or any blasting activities, future construction or change of use within the Easement shall be subject to prior written approval by PSNH. Requests for approval shall be addressed to David J. Hickey, P.E., Transmission Line Engineer or his successor. PSNH's approval will not be unreasonably withheld.

(10) The Bleys agree not to construct any permanent structures within the Easement to include storage sheds.

(11) The Bleys agree not to place any wells or any additional septic systems except as shown on the Plan within the Easement.

(12) The Bleys agree, following maintenance of the Tank and Leach Field or construction and maintenance of the Replacement Leach Field, to dispose of all waste material outside the Easement; grade, resoil and reseed in a reasonable manner wherever necessary; employ any necessary erosion control measures; and restore and maintain the Easement in a condition acceptable to PSNH.

(13) The Bleys agree to obtain and keep in force during the term of this Agreement any and all permits or approvals required by any authority having jurisdiction over construction of this nature, and shall be responsible for payment of any and all taxes levied on it.

(14) The Bleys agree to indemnify and save harmless PSNH from and against any and all loss, cost, damage and expense, and defend and indemnify PSNH against any and all claims, actions, or proceedings for property damage, personal injury or death arising out of or in any way connected with the exercise by the Bleys of the rights granted to the Bleys herein.

(15) Any consent, express or implied, by either party to a breach by any other party of a covenant, or a condition contained herein, shall not

constitute a waiver of any prior or succeeding breach of any covenant or condition contained herein.

(16) This Agreement shall be binding upon and inure to the benefit of the parties and their heirs, administrators, successors and assigns.

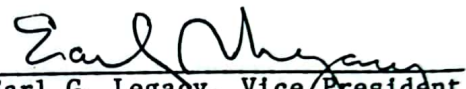

(17) The Agreement shall be interpreted in accordance with the law of the State of New Hampshire and it shall be specifically enforceable.

(18) This Agreement contains the entire Agreement between the parties and any amendment thereof shall be in writing and executed by the then parties to this Agreement.

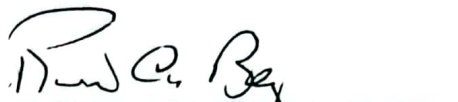

EXECUTED by the parties the day and year first above written.

Subsurface waste disposal systems must be operated and maintained in a manner so as to prevent nuisance or health hazard due to system failure.  
(RSA 485-A:37)  
It is unlawful to discharge any hazardous chemicals or substances into subsurface waste disposal systems. Included are paints, thinners, gasoline and chlorinated hydrocarbon solvents such as TCE, sometimes used to clean failed septic systems and auto parts. (Env-Ws 1503.04)
